Wichita, Kansas, Aug. 14, 2006

## Musings about game length

This writer has been thinking about what does it take to help keep the tournament running on time, or close to it, and has concluded that if a game gets completed in about 1:55, then after 35 minutes for field preparation and infield practice for the next game, that would get things close to schedule.

The main problem is that the average game time has been getting longer, and there haven't been enough of those 1:55 games, and seemingly too many of the 2:45 or more games. Fourteen games took at least 2:45 to play, which is a high since the survey of game times began in 2000. By contrast, sub-2:00 games totaled 14, with the sub-1:30 contests almost became non-existent.

All of that combined to push the average game time to a high of 2:20, up just over a minute from last year's 2:19.

## Run rule games

Nine games were called by the 10-run rule, up from six a year ago (but that accounts for just over 10 percent of games played). Eleven games were decided by 10 or more runs, up four from last year. Highs were reached in average runs by both winning and losing teams, as well as the average margin of victory.

Had the six-run lead rule been in effect, 19 games that went the full distance would have been shortened (which is the same as last year and 2004).

On the other end of the spectrum, 24 games were decided by one or two runs (last year, 31 games were decided by those margins).

## Year for the offense

The 2006 tournament saw an almost 30-point jump in batting average, as teams batted .291. Runs and hits per game saw a sizeable increase, while home runs were up slightly.

Sixteen teams, including the champion Santa Barbara (.301) and runner-up Derby (.354) batted .300 or better, more than twice as many as last year. Only three teams failed to reach .200 (compared to seven in 2005). The Wichita Titans avoided being the second team to avoid being shut out in both of its games, but not by much.

## Not a year for the pitching

The pitching took a licking in the tournament, with the tournament ERA jumping almost a full earned run from last year's 3.95 to 4.87. Only four teams had an ERA under 3.00 (down from eight), and none under 2.00. In fact, it seemed to be the surest way to see a team's ERA go up was to have it be under 2.00 for a day (as happened to Santa Barbara in the quarterfinals and Derby in the championship game, although the Twins did retain the lowest tournament ERA at 2.40). Only one team (Chillicothe MO at 11.40) had an ERA over 10.00.

Three pitchers went 3-0: Matt Whittaker and Jon Qualls of Derby and Alexander Francisco of Santa Barbara. Whittaker pitched two of the three 2-hitters in tournament play.

## Fielding: Not much of a change

Tournament fielding remained about constant at .954, same as last year. Errors were up slightly from last year, while double plays showed a nearly 25 percent increase.

Of teams that played at least five games, Havasu AZ wound up with the fewest errors with five. (The U.S. Military All-Stars was charged with one error in three games, and San Luis Obispo had two in four games, but neither finished in the top 16). Santa Barbara joined Southern Cal and Nevada MO with 10 double plays, while Chillicothe MO was the lone team to not reach .900 fielding.

Two games (San Luis Obispo-Pueblo, #15 and Havasu-Seguin, #77) were errorless games. The high for most errors in a game by both teams was seven, done five times.

## Robertson Field revisited....

Play at Robertson Field was not as lively as last year; the batting average for the six games as 15 points less than at Lawrence-Dumont (.292 at L-D vs. .277 at WOL); conversely the ERA at Robertson was a more than full run less than games at L-D (4.96 at L-D, 3.83 at Robertson).

## Home run analysis

A few more homers were hit this year, all but one at L-D...most of the increase was in the solo and two-run variety...the middle innings were the best chances to see one of those horsehide comets.

Grand slams: Ryan Goins, Austin (game 6); Brian Danks, Beatrice (#13); Andre Marshall, Seattle (#68).

Type	Leadoff	Solo	1-on	2-on	3-on		Outs	None	One	Two

## Running the table

Santa Barbara became the third team to go undefeated in winning the championship; the others were Liberal in 2000 and Aloha OR in 2004. No team in the new wood era has gone 8-0 to win the title.

## And many thanks to...

This writer salutes the yeoman efforts of Ben Brown, Aaron McMullen (these two kept the TAS Live going at Lawrence-Dumont Stadium), Gary Goad, Rick Masters and Larry Shirk in doing the associate scoring.

And, the writer also thanks Jerry Taylor, Josh Robertson, Eric Edelstein and Rachelle Miller, who got a valuable lesson in scoring (I think?).

## Multi-State League

California joined Kansas with 10 teams each in the field (which accounted for 45.5 percent of the tournament population) ... Texas, which annually sends a handful of teams, only sent three for the second consecutive year.

Wichita had four teams, down one, while the area around the Air Capital also had four.

Oklahoma and Colorado swapped places in number of teams, while Missouri joined the Tri-Star Triad conference.
